

29 October 2010

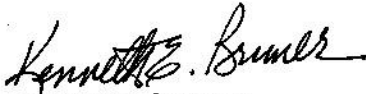

Over the past two days members of the Local 107 bargaining committee and management representatives have begun the process of meeting / bargaining for the purpose of amending the contract of April 4, 2011.

Both parties continued to approach bargaining by mutually solving language and interpretation conflicts in the CBA. Three of the first four days of bargaining have dealt with Article 8 – Job Posting and Bidding. We are happy to announce that has been agreed upon with improvements in language and procedure.

The parties look forward to the next session scheduled for November 15, 2010 and are optimistic that talks will continue to accelerate with the same degree of success that we have accomplished to this point.
