Today your Negotiating Team had its eighteenth session of negotiations with the Company

The negotiating team met with the Company today for the sole purpose of giving the Company our counter-proposal on economics. We feel that our proposal was well thought out and extremely fair. The Company's reaction was cool, highlighted by in depth explanation of the current economic challenges that they face.

We expressed understanding of their situation, and noted our desire to facilitate them as best we can until the current market conditions improve. Both sides are continuing to explore alternative possibilities.

The next negotiating session is set for April 18<sup>th</sup> through April 21<sup>st</sup>, at which time we will receive the Company's counter-proposal on economics. We are hopeful that proposal will be something the membership can endorse.
